10 Important MCQ on CLOZE TEST For SBI Clerical Canara Bank PO DMRC 2018

Directions (1-10): In the following passage, there are blanks, each of which has been numbered. These numbers are printed below the passage and against each, five words are suggested, one of which fits the blank appropriately. Find out the appropriate word in each case.

Elite concerns are usually disconnected from the ground reality. For the 1 percent of Indian who live privileged, cocooned lives, the judicial right to privacy __ (1) __ by the Supreme Court yesterday will add yet another layer with which they can insulate themselves __ (2) __ the “barbarians at the gate”.

So, here is __ (3) __ the rich will benefit. First, they may now be able to refuse medical __ (4) __ and die in their beds, peacefully, instead of being compulsorily __ (5) __ up to tiresome, life-saving machines in hospitals. But try explaining this “right” to the millions of poor Indians for __ (6) __ just getting __ (7) __ to hospitals is still a

dream and refusing treatment would be unimaginable.

Second, the well-heeled may now be able to press for ___(8)___ judicially forgotten – all traces of their past lives and identities expunged, giving them a fresh ___(9)___ without having to flee to distant London or arid Dubai. Contrast this with the Herculean efforts the average Indian makes to become part of a database and have an officially ___(10)___ identity – a voter card, a passport, a PAN card, anything which ___(11)___ that she exists. Third, those with alternative lifestyles – the Lesbian, Gay, Bisexual Transgender (LGBT) community might now hope to be free of the notoriously archaic Section 377 of the Indian Penal Code, which criminalizes everything other than straight sex. But would this give them the ___(12)___ to marry a partner of their choice; adopt children or be socially accepted?

Now ponder the downsides. Law enforcement agencies struggle to manage terrorism, Naxalism, urban mafiosi, drug pushers and armed rural gangsters even today. “Privacy” concerns will provide a legal ___(13)___ to undermine information collection, detection and investigation. Nothing less than the over-the-top, draconian Armed Forces (Special Provisions) Act – used today only in the “disturbed” areas in Kashmir and parts of the North East – would be effective. Since gangsters can ___(14)___ to hire the best lawyers, the violation of their fundamental right to privacy in the process of enforcing the law, will now become a favourite ploy to keep these worthies free to wreak ___(15)___.

10 Important MCQ on READING COMPREHENSION BASED ON BUDGET For SBI Clerical Canara Bank PO DMRC Railway Exam 2018

Directions (1-10): In the given passage, answer the following questions according to the idea expressed in the passage.

Promotion of a digital economy is an integral part of

Government's strategy to clean the system and weed out corruption and black money. It has a transformative impact in terms of greater formalisation of the economy and mainstreaming of financial savings into the banking system. This, in turn, is expected to energise private investment in the country through lower cost of credit. India is now on the cusp of a massive digital revolution.

A shift to digital payments has huge benefits for the common man. The earlier initiative of our Government to promote financial inclusion and the JAM trinity were important precursors to our current push for digital transactions. Already there is evidence of increased digital transactions. The BHIM app has been launched. It will unleash the power of mobile phones for digital payments and financial inclusion.

125 lakh people have adopted the BHIM app so far. The Government will launch two new schemes to promote the usage of BHIM; these are, Referral Bonus Scheme for individuals and a Cashback Scheme for merchants.

Aadhar Pay, a merchant version of Aadhar Enabled Payment System, will be launched shortly. This will be specifically beneficial for those who do not have debit cards, mobile wallets and mobile phones. A Mission will be set up with a target of 2,500 crore digital transactions for 2017-18 through UPI, USSD, Aadhar Pay, IMPS and debit cards. Banks have targeted to introduce additional 10 lakh new PoS terminals by March 2017. They will be encouraged to introduce 20 lakh Aadhar based PoS by September 2017. Increased digital transactions will enable small and micro enterprises to access formal credit. Government will encourage SIDBI to refinance credit institutions which provide unsecured loans, at reasonable interest rates, to borrowers based on their transaction history.

The digital payment infrastructure and grievance handling mechanisms shall be strengthened. The focus would be on rural and semi urban areas through Post Offices, Fair Price Shops and Banking Correspondents. Steps would be taken to promote and possibly mandate petrol pumps, fertilizer depots,

municipalities, Block offices, road transport offices, universities, colleges, hospitals and other institutions to have facilities for digital payments, including BHIM App. A proposal to mandate all Government receipts through digital means, beyond a prescribed limit, is under consideration.

Government will strengthen the Financial Inclusion Fund to augment resources for taking up these initiatives. Government will consider and work with various stakeholders for early implementation of the interim recommendations of the Committee of Chief Ministers on digital transactions.

The Committee on Digital Payments constituted by Department of Economic Affairs has recommended structural reforms in the payment eco system, including amendments to the Payment and Settlement Systems Act, 2007. Government will undertake a comprehensive review of this Act and bring about appropriate amendments. To begin with, it is proposed to create a Payments Regulatory Board in the Reserve Bank of India by replacing the existing Board for Regulation and Supervision of Payment and Settlement Systems. Necessary amendments are proposed to this effect in the Finance Bill 2017. As we move faster on the path of digital transactions and cheque payments, we need to ensure that the payees of dishonoured cheques are able to realise the payments. Government is therefore considering the option of amending the Negotiable Instruments Act suitably.

10 Important MCQ on ENGLISH Reading Comprehension For SBI Clerical Canara Bank PO DMRC Railway Exam 2018

The government has no business to be in the business of owning airports, running hotels, making bread – and owning banks. When the government stepped into these sectors in the first flush of Independence, it was with a view to creating basic capacities. With the passage of time, it became clear that overwhelming government presence was doing no good to anyone. Today, the benefits of the government stepping back in sectors like telecom and aviation are evident. Till as recently as the early 90s, a landline was a status symbol because it was accessible to just 2 per cent of the population. Today, the mobile phone is a ubiquitous feature of rural and urban India. Indian Airlines and Air-India had reduced air travel to a privilege; with competition, rates have fallen to a third of levels that obtained a decade ago, despite little change in input costs. The time is ripe for the government to ease itself out of banking as well.

The recent strike by State Bank of India employees will result in higher pension outgo in the entire banking sector. This will further consolidate the organised labour aristocracy and its tendency to act as a law unto itself. Bank nationalisation was seen as a necessity in 1969, in order to direct credit to

Green Revolution areas. Today, that system has outlived its utility, as agriculture is a transformed occupation with new risks and opportunities. Green Revolution is in the grip of diminishing returns, and prosperous farmers of yesteryears are fast moving out of agriculture. Small farmers all over the country are in distress, as rural banks lend to moneylenders instead of dealing directly with them. New forms of production based on contract farming do not really need the sarkari banking network.

Private players have made lending more competitive and customer-friendly. A small-scale entrepreneur need not suffer for lack of working capital, nor does he have to bow and scrape before a bank manager. Credit is readily available to business, in varying packages to suit different needs. It is not hard to visualise a replication of this situation in rural areas. With a number of players in rural credit, entrepreneurs who come forward with proposals for food processing and cold storage would benefit. Farmers seeking to add value to their produce will encounter fewer hindrances in a competitive situation. A spirit of enterprise in rural banking can transform rural India. Gramin banking, or microcredit, has worked wonders in Bangladesh. Given the chance, it could do the same here.

1. That the mobile phone is a ubiquitous feature of rural and urban India today shows that

- 1) people have no interest in landline phone these days.
- 2) telephone is easily available everywhere now.
- 3) technology can invade all the barriers.
- 4) telephone has become affordable for all now.
- 5) mobile phone has taken the place of landline phone everywhere.

2. Which of the following seems to be false in the context of the passage?

- 1) Agriculture sector has witnessed much change over the years.

- 2) Green Revolution has lost its charm with the farmers.
- 3) The government is facing competition in telecom, aviation, banking etc.
- 4) Agriculture is no more a lucrative area for the wealthy farmers now.
- 5) None of these

3. Which of the following is 'true' in the context of the passage?

- 1) Getting loans from private banks is easier than the nationalised banks.
- 2) Credit through banks is readily available for even small farmers these days.
- 3) Landline phone is considered a status symbol.
- 4) Gramin Banking has failed in India.
- 5) None of these

4. What message does the author want to convey to the government through this passage?

- 1) Govt should compete with private players in telecom, aviation, banking etc.
- 2) Govt should withdraw from telecom, aviations banking etc.
- 3) Govt should allow private players in all the areas of business.
- 4) Govt should provide credit to the farmers on simpler terms.
- 5) None of these
